

RECIPE

Cam's Easy Banana Pudding

Ready in **20 minutes**

Serves **8 people** * Honestly I have NO idea how many this will actually serve. I typically eat it all.

?? calories * Who cares about this. I don't even have a clue. It doesn't matter. Just eat it.

Ingredients

- Favorite Instant Pudding (Vanilla or Banana Cream)
- Favorite Milk (1% or Almond Milk)
- Cool Whip (1 container thawed)
- Vanilla Wafers (Any brand will do)
- Bananas (I typically use 3)

Preparation

1. **Chop Bananas** chop up 3 peeled bananas. Nothing fancy just bite size.
2. **Layer the pan with vanilla wafers.** I use a 9x13 glass pan with a lid for easy storage.
3. **Mix Instant Pudding** Mix your instant pudding with your milk. Follow the directions on the box. I typically use just a bit less milk than it calls for. Once all mixed add your thawed Cool Whip. Fold it in until all mixed up.
4. **Layer your ingredients.** layer your bananas over the bottom layer of the vanilla wafers. Pour your pudding mixture over all of that. (lick your bowl & spatula if you want while you wait.) Use the rest of the vanilla wafers on the top. Even the crumbs in the bag if you want.
5. Chill in the fridge until set and EAT!.

Tips

This is good for dessert, a late night snack, or even breakfast. I mean there are bananas and milk in it. :)
